

Holiday Decorations in the Workplace

These are best practices guidelines that the State Equal Employment Opportunity Office and Rowan University support regarding decorations in the workplace. Please be respectful of all beliefs and the various observances that occur this season, as well as at other times of the year.

With that in mind, office decorations are allowed as long as no obvious, religious icons are displayed. Examples of religious decorations include but are not limited to nativity sets, menorahs, etc. Examples of allowable seasonal decorations include but are not limited to greenery, Santa, lights, snowflakes, snowmen, candy canes, etc. Please be advised that any and all participation in holiday activities is voluntary and non participation should not be viewed negatively.

If you have any questions or concerns please contact the Office of Equity and Diversity at extension 5440 (Off campus 856-256-5440).
