# The 8th Annual Adventure Education Experience

Bring the spirit of Adventure into your

- Gymnasium
- Classroom
- Counseling Session
- Group Meeting

Learn the theory of Experiential Learning as it is applied to Adventure Activities through the use of goal oriented games, initiatives, as well as with low, medium, and high rock challenges.

## The goals of this workshop are to..

- Present a practical overview of experiential learning.
- Learn NEW adventure-based games, activities, and group challenges that could be used with groups.
- Emphasize high impact and efficient processing and debriefing techniques.
- Demonstrate and encourage the proper use of experiential techniques in various settings.
- Introduce a variety of low and high elements.
- Expose participants to the natural highs of learning through activities.
- Challenge participants to play hard, have fun and be safe!

*For participants of previous Adventure Education Experiences, this workshop will include a variety of new elements and the value of debriefing the experience will be heavily emphasized.*
