NOTICE

All Rowan students planning Clinical Practice or other Field Experience in New Jersey public schools . . .

The State of New Jersey mandates that every college student who “...*WORKS INDOORS AND HAS CONTACT WITH PUPILS 20 OR MORE HOURS PER MONTH...*” be tested for tuberculosis within six months of coming into contact with pupils in the schools of New Jersey.

If you have been tested within six months of contact with pupils, take test results to the Student Health Center, Linden Hall, where it will be recorded for future reference. *Be sure to take a copy to the nurse at the school where you are assigned to do your Field Experience or Clinical Practice.*

If you do not have evidence of a Mantoux test within the required six months, you must take care of this requirement before beginning any Field Experience in a New Jersey public school setting.

College students transferring between school districts within New Jersey do not have to be retested if there is documented record of a Mantoux test being administered upon the student’s initial Field Experience.

PLEASE NOTE: Prior to the start of Clinical Practice or full day Field Experience, school districts may require a valid Mantoux negative result that is not older than six months. It is recommended that you obtain a new Mantoux test prior to the start of such assignments if you have not been tested within the past six months.

IT IS *YOUR* RESPONSIBILITY TO MAINTAIN PROOF OF YOUR CURRENT MANTOUX TEST RESULTS.

FAILURE TO MEET THIS REQUIREMENT WILL DELAY YOUR FIELD EXPERIENCE.
