

Call for Papers

6-8 February 2007
San Diego, California, USA

www.sensorapps.org

The 2007 IEEE Sensors Applications Symposium (SAS-2007) provides a unique forum for sensor users and developers to meet and exchange information about novel and emergent applications in smart sensors, biology, homeland security, system health management, and related areas. Collaborate and network with scientists, engineers, developers and customers, in a balance of formal technical presentations, workshops, and informal interface meetings—

A unique feature of this conference, found nowhere else.

The following tracks are proposed:

Sensors

- Biosensors/Arrays
- Smart sensors and standards (IEEE 1451.X)
- Wireless and networked sensors
- MEMS and nanosensors
- Virtual sensors

Sensor Applications

- Homeland security
- Multisensor data fusion
- Nondestructive evaluation and remote sensing
- Integrated system health management (ISHM)
- Commercial development

Additional topics for workshops and new session tracks are especially welcome—please contact the Program Chairs.

Important Dates

- **01 October 2006:** Abstract submission deadline
- **01 December 2006:** Notification of acceptance
- **01 January 2007:** Final manuscript submission deadline
