

Rowan Math Department
PERMISSION OVERRIDE TO ENROLL IN A CLOSED COURSE POLICY

Any Rowan student wishing to obtain a permission override to enroll in a closed course must complete the following:

1. Complete an override form to enroll in a closed course (available from the Registrar's office).
2. Obtain permission of the instructor of the course and have the instructor sign the override form.
3. Submit the override form to the Math Department secretary for approval and signature of the Math Chairperson.

IMPORTANT NOTE: If the enrollment of a math course reaches the maximum room capacity, then NO additional students are allowed to enroll, even if the instructor gives permission. Only seniors who need to take a course in this circumstance to fulfill graduation requirements can seek special permission from the Dean of the College of Liberal Arts and Sciences.
