“Scholarly Products” Calculations for 2013-2014 Promotions

Prepared by Rachael Berget, M.Ed., CMSRU Director of Faculty Affairs

“Scholarly products” include original publications, books, book chapters, review articles, and editorials/other invited articles. Abstracts are not counted in “scholarly products” calculations.

**Promotions to Professor:**

Number of promotions in 2013-2014: 2

Number of scholarly products, 1st candidate:

- 15 orig. papers
- 2 review articles
- 4 book chapters

**21 scholarly products**

Number of scholarly products, 2nd candidate:

- 6 orig. papers
- 5 review articles
- 1 book
- 16 book chapters

**28 scholarly products**

**Average number of scholarly products:** 24.5, or **25**

Minimum # of scholarly products: **21**

Maximum # of scholarly products: **28**

**Promotions to Associate Professor:**

Number of promotions in 2013-2014: 9

Number of scholarly products: 6, 7, 10, 14, 15, 17, 17, 26, 48; TOTAL = 160;

**Average number of scholarly products:** 160/9 = 17.78, or **18**

Median # of scholarly products = **15**

Minimum # of scholarly products = **6**

Maximum # of scholarly products = **48**
Promotions to Assistant Professor:

Number of promotions in 2013-2014: 4

Number of scholarly products: 0, 0, 2, 3; TOTAL = 5

Average number of scholarly products: $\frac{5}{4} = 1.25$, or 1

Median # of scholarly products: 1

Minimum # of scholarly products: 0

Maximum # of scholarly products: 3
