“Scholarly Products” Calculations for 2015-2016 Promotions

Prepared by Rachael Berget, M.Ed., CMSRU Director of Faculty Affairs

“Scholarly products” include original publications, books, book chapters, review articles, and editorials/other invited articles. Abstracts are **not** counted in the “scholarly products” calculations.

**Exception for Scholarship Pathway candidates** – Scholarship of Practice and Teaching for Clinical Faculty (and, for Biomedical Sciences [BMS] faculty, the Scholarship of Teaching and Educational Leadership for Basic Science Educators): A special pathway that was created to recognize the fact that some faculty at CMSRU dedicate themselves totally to the efforts of superlative teaching and/or clinical care and/or program development. Traditional scholarly productivity is not expected for clinical faculty in the Scholarship of Practice and Teaching for Clinical Faculty pathway. However, traditional scholarly productivity is expected of BMS faculty, who are subject to the requirements set forth in the Memorandum of Agreement (MOA) between the American Federation of Teachers (AFT) and Rowan University.

**Promotions to Professor** - 1 promoted in the Scholarship Pathway; 2 promoted in the standard designation; calculations below for the 2 promoted in the standard designation:

Number of promotions in 2015-2016: 2

Number of scholarly products: 14, 17 = 31

*Average (mean) number of scholarly products: 31/2 = 15.5 or 16*

Minimum # of scholarly products = **14**

Maximum # of scholarly products = **17**

**Promotions to Associate Professor** - 2 promoted in the Scholarship Pathway; 5 promoted in the standard designation; calculations below for the 5 promoted in the standard designation:

Number of promotions in 2015-2016: 5

Number of scholarly products: 7, 8, 9, 18, 43 = 85

*Average (mean) number of scholarly products: 85/5 = 17*

Median # of scholarly products = **9**

Minimum # of scholarly products = **7**

Maximum # of scholarly products = **43**
Promotions to Assistant Professor - 4 promoted in the Scholarship Pathway; 3 promoted in the standard designation; calculations below for the 3 promoted in the standard designation:

Number of promotions in 2015-2016: \(3\)

Number of scholarly products: \(2, 2, 2 = 6\)

Average (mean) number of scholarly products: \(6/3 = 2\)

Median # of scholarly products: \(2\)

Mode of scholarly products amounts = \(2\)

Minimum # of scholarly products: \(2\)

Maximum # of scholarly products: \(2\)
