Title: Prerequisite Change to Advanced Structural Analysis for Seniors (0908.473)

Details

- a. Change requested: Revise the course prerequisite

From: 0908.383 Analysis and Design of Steel Structures, 0908.281 Structural Engineering I, 0908.382 Structural Analysis and Design

To: 0908.382 Structural Analysis and Design

- b. Sponsor: Douglas Cleary

Rationale

- a. Need: A previous revision to the Civil and Environmental Engineering Curriculum included the renaming of several structural engineering courses and the repositioning of material within those courses. Of the preciously listed prerequisites only 0908.382 Structural Analysis and Design now contains content required for Advanced Structural Analysis for Seniors (0908.473).
- b. Curricular effect: None – this simply corrects an oversight in prerequisite listing when the earlier curriculum revision was made.

Results of Consultations

None required.
