GLASSBORO STATE COLLEGE  
DEPARTMENT OF HEALTH AND PHYSICAL EDUCATION

Minor Curricular Change  
Change in Credit Hours

1. Details

A. Change Requested

The change requested is for Curriculum and Instruction in Secondary Physical Education (0835.331) to be reduced From three credit hours - To two credit hours.

B. Sponsor

Dr. Mary L. Putman - Department Chairperson  
Ms. Edith S. Thompson - Chairperson, Departmental  
Curriculum Committee

C. Rationale

The course Curriculum and Instruction in Secondary Physical Education is currently a three semester hour course requirement for students specializing in teacher certification. The junior field experience is currently a portion of this course. This proposal will reduce the credit hours for the curriculum course in secondary physical education to a two semester hour course. A second proposal will create a new one semester hour course entitled Junior Field Experience in Teaching Health and Physical Education. The new one-credit course will serve as the practicum experience for not only Curriculum and Instruction in Secondary Physical Education (0835.331), but also for the courses entitled Curriculum and Instruction in Elementary Physical Education (0835.330), and Health Program Planning (0837.453).

These three courses will be taken concurrently during the spring of the junior year along with the new field experience course. The department feels that a separate field experience course will be more administratively feasible.

Catalog Description

Curriculum and Instruction in Secondary Physical Education  
(2 sh) (0835.331)

Prerequisite: Foundations of Teaching Health and Physical  
Education (0835.285)

Corequisites: Elementary School Physical Education Curriculum  
and Instruction (0835.330)  
Health Program Planning 0837.453)

This course focuses on the teacher as a planner/decision maker for the roles of curriculum designer, organizer, and instructor in physical education at the secondary level. Pre-service teachers explore influences on the curriculum and prepare unit and lesson plans. This course will be taken concurrently with Field Experience in Teaching Health and Physical Education which will provide them with opportunities to apply skills in school-based settings.
