Minor Curricular Change Proposal:

Environmental and Occupational Health 1203402 3sh

I. Details:

a. Change requested: Environmental and Occupational Health becomes an elective course.

b. Sponsors: Gregory B. Hecht, Elizabeth Brooks, Richard Meagher (Dept. Biological Sciences)

Co-sponsor: UMDNJ (University of Medicine & Dentistry of New Jersey)

II. Rationale:

- a) Statement of Need: Nurses are employed in many fields within the health care arena. We wish to reflect this diversity within the nursing major by permitting the student nurse to select that pedagogy that best meets the needs of the area of specialization of the chosen field through an elective course.
- b) Statement of Curricular Effect: The purpose of the course is to provide students with an understanding of issues related to Environmental and Occupational Health related to nursing practice and health care. The methodology used for presentation of the course is UMDNJ SN Web-CT. The course will be an elective for nursing students

III Results of Consultation:

Consultations conducted within the School of Nursing of UMDNJ resulted in the determination that three credits were needed to provide the student with the needed course content. This course was forwarded to Dr. Marie Cammarota, Coordinator of the School Nursing (HOSA) Program. She was pleased to support the program. (see attach)

Catalogue Description:
Environmental & Occupational Health 1203402 3sh

This elective course prepares the student to assess changes in health status that may be related to the environment and/or the work place. Students are provided with strategies for these phenomena.

Campbell Library
Library Resource Form

College: Liberal Arts and Sciences - Biology - Nursing

Proposed by: Drs. Hecht, Brooks, Meagher, and UMDNJ Faculty

Course Title: Curriculum Changes (decrease in hours); Change Environmental and Occupational course to elective status

Anticipated Date for Course/Program Offering: Spring 2006

Part B: Resources that should be acquired

No additional resources are needed at this time.

Part C: Resources available in Campbell Library

The library has a core collection of books in nursing, including practice and administration.

Part D: List key periodical resources

Campbell Library is fortunate to have access to online journal databases in a large number of disciplines, including biology and nursing. Specific examples include:

Academic Search Premier (EBSCO)
Applied Science and Technology Abstracts
CINAHL
Elsevier (ScienceDirect)
ERIC
General Science Fulltext
PsychINFO
Social Services Abstracts
Sociological Abstracts

Part E: Librarian remarks

Given the library's book holdings and database availability, this request for a change in curriculum requirements and for a change to elective status in a course can be supported.

Gregory C. Potter, Library Liaison
January 31, 2005

Rowan University
CURRICULUM PROPOSAL
LIBRARY RESOURCE FORM

The purpose of this form is to provide a channel of communication between the library and faculty changing and designing new courses/programs. The information will be used to assess the resources available in the library, and to identify resources the library should acquire to support the course/program. The information will also provide rationale for institutional support for library acquisitions. This form should be completed in a coordinated effort between the course sponsor(s) and the academic department liaison librarian. **THIS FORM MUST BE COMPLETED FOR ALL CURRICULUM PROPOSALS.**

- The sponsor(s) complete parts A & B
 If assistance is required to complete parts A & B, please notify the liaison librarian.
- Forward this form to the librarian who will complete parts C, D & E

This form must be completed and attached to the original curriculum proposal before being approved by the Senate Curriculum Committee

A. College Arts & Sciences Department Biology - Teaching

Proposed by: Koch, Debra, Director UMDNJ Date: February '05

Course Title: Proposed Change to Degree Credit based from 36 to 31 - Change Theory

Anticipated Date for Course/Program Offering: Spring 06
Change from 36 to 31 credits - This course is related to occupational and discipline

B. List specific resources that should be acquired to support this course.

None anticipated

C. Describe the resources available in the library to support this course/program, including reference, monographic, electronic databases, audio-visual materials, etc. A summary statement is sufficient.

*According to MOW between Rowan University & UMDNJ - 57
 students utilize the library in Stratford and the Campus of UMDNJ.*

D. List key periodicals available in the library to support this course/program.

E. Librarian comments and recommendations:

To: Dr. Barbara Benjamin, Coordinator UMDNJ BSN Program
From: Dr. Marie Cammarota, Coordinator School Nursing Program *MBC*
Re: Curriculum Change to the Rowan/UMDNJ BSN Program
Date: February 9, 2005

This memo is in response to your communiqué of February 1, 2005 regarding the reduction of required course credit for the Rowan/UMDNJ BSN Program to reflect:

After meeting with the Department of Special Educational Services/Instruction, Curriculum Committee, the change will not conflict with offerings in the School Nurse Program.

cc: Dr. Carol Sharp, Dean College of Education
Dr. Sandra McHenry, Chair Dept. of Special Education

Minor Curricular Change Proposal:

Environmental and Occupational Health 1203402 3sh

I. Details:

a. Change requested: Environmental and Occupational Health becomes an elective course.

b. Sponsors: Gregory B. Hecht, Elizabeth Brooks, Richard Meagher (Dept. Biological Sciences)

Co-sponsor: UMDNJ (University of Medicine & Dentistry of New Jersey)

II. Rationale:

- a) Statement of Need: Nurses are employed in many fields within the health care arena. We wish to reflect this diversity within the nursing major by permitting the student nurse to select that pedagogy that best meets the needs of the area of specialization of the chosen field through an elective course.
- b) Statement of Curricular Effect: The purpose of the course is to provide students with an understanding of issues related to Environmental and Occupational Health related to nursing practice and health care. The methodology used for presentation of the course is UMDNJ SN Web-CT. The course will be an elective for nursing students

III Results of Consultation:

Consultations conducted within the School of Nursing of UMDNJ resulted in the determination that the content of Environmental and Occupational Health needed by the RN to BSN Student was accommodated within the Community Health Course and therefore the course Environmental and Occupational Health could become an elective course. This course was forwarded to Dr. Marie Cammarota, Coordinator of the School Nursing (HOSA) Program. She was pleased to support the program. (see attach)

Catalogue Description:
Environmental & Occupational Health 1203402 3sh

This elective course prepares the student to assess changes in health status that may be related to the environment and/or the work place. Students are provided with strategies for these phenomena. No pre/co-requisite needed.
