## Process A: Curriculum Proposal

### DETAILS

- a. Changing the number of credits for the course Senior Field Experience in Health Promotion and Fitness Management (0837.483) from 6 credits to 9 credits.
- b. Sponsors: Leslie Spencer, Francie Pagell, Richard Fopeano  
Department of Health and Exercise Science

### RATIONALE

Students in this course complete 400 hours of an internship experience. The current 6 credits offered for the completion of this course is too low, considering the amount of time put into it. Students completing the Student Teaching experience, a comparable course in terms of time and effort, currently receive 9 credits. Our desire is to offer the appropriate number of credits to complete this course.

The curricular impact will be neutral. Last May 2005, the course Introduction to Health and Exercise Science was dropped as a required course for HPFM students. This change will replace those three credits, keeping the total semester hours to complete the HPFM specialization at 121.

### RESULTS OF CONSULTATION

No consultations were necessary for this change.
