STUDENT RESPONSIBILITIES

(See University Undergraduate Catalog (www.rowan.edu/catalog):

“...It is the responsibility of the student to become knowledgeable of, and to observe, all University policies, regulations and procedures. The University is under no obligation to waive a requirement or grant an exception because a student pleads ignorance of a policy, regulation or requirement or because a student asserts that he/she has not been informed of such policy, regulation or requirement.

It is the student’s responsibility to become familiar with, and to remain informed about, all academic, administrative, financial or other policies, regulations or requirements concerning admission, registration, payment of tuition or fees, continued enrollment, grades and satisfactory program progress, graduation requirements or any other matter which affects the student. Students are especially expected to know the requirements of the program in which they are enrolled. While the faculty and staff (advisors) will endeavor to assist in every manner possible, students are responsible for becoming and remaining informed of current program and graduation requirements, their status in the program and their progress toward graduation.”

Please work closely with your education and dual major advisors to make sure that these requirements are satisfied. Your graduation and/or certification approval may be withheld if these requirements are not met.

ADVISEMENT INFORMATION

Because the time period for registration is limited, you are encouraged to make an appointment for advisement in advance of obtaining the schedule of courses’ booklet, available shortly before Early Registration begins.

Even if the Professional Semester is completed, the BA in Education will not be awarded until all of the requirements for your dual major are also met/completed. Since both your education advisor and your dual major advisor approve you for graduation, meeting on a regular basis with both advisors will avoid any graduation/certification problems.

Be reasonable in your demands on your advisors’ time and resources: (1) Make an appointment to see your advisor, do not just “show up” expecting your advisor to be ready and willing to meet with you; (2) see your advisor well ahead of deadlines [If you wait until the last minute you will not get the attention you are seeking.]; and (3) be sure to ask for clarification on any and all issues [It is better to receive correct information than to accept rumors.]
