

May 10, 2007

Dear Student,

History of Math (May 15 - July 5) has unfortunately been cancelled due to low enrollment. Please look for the course to be offered again next summer as we look to increase our efforts in advertising the course (this is the first time that the course is being offered online). I appreciate your help in spreading the word about the course to your colleagues. The Registrar's office will credit the tuition you paid for this course to your account.

The Math Department is also offering the Engineering Applications of Analysis graduate math course during Summer Session II (July 5 – August 9) in addition to four graduate math courses this fall semester. Please consider registering for one or more of these courses. More information about our summer and fall schedules can be found at: http://www.rowan.edu/studentaffairs/registrar/schedules/schedule_of_courses/.

Please accept my apology for the cancellation. The Math Department is committed to offering a variety of courses that satisfy your academic interests and schedules.

Sincerely,

Hieu Nguyen
