Courtyard Approach

Rowan University
North Residence Halls

Sustainability Strategies

- Expand natural edge of Abbott's Pond over time
  - Improve water quality and reduce stormwater run-off quantity
  - Reduce erosion
  - Reduce high-maintenance lawn area

- Establish lower maintenance landscape zones

- Harvest rainwater within the courtyards for irrigation / design rainwater gardens for better infiltration

- Expand parking islands to accommodate vegetated filter strips

- Install cut-off light fixtures, lower light levels within courtyards
