RESOLUTION #6

APPROVAL OF EMERGENCY PURCHASE OF TRANSFORMER

WHEREAS, N.J.S.A. 18A:64-57 provides that the University may negotiate and award a contract for the purchase of equipment for immediate delivery without public advertising for bids, notwithstanding that the cost will exceed the bid threshold, provided that an emergency affecting the health, safety or welfare of college property is declared and provided the purchase is consistent with the specific provisions of the statute, and

WHEREAS, on or about January 22, 2007 a transformer to furnish electrical power to Wilson Hall became disabled and could not immediately be repaired, thus requiring prompt action to enable classes to continue at the building and to protect the health and safety of the occupants and the integrity of the structure itself, and

WHEREAS, on January 23, 2007, the Vice President for Administration & Finance of the University recommended to the President of the University that there be a declaration of emergency, and the President approved the declaration as being justified by the need to protect the health, safety and welfare of the occupants of Wilson Hall and the integrity of University property, and

WHEREAS, staff of the University contacted numerous potential suppliers of a replacement transformer, and identified only one vendor, Scott Testing, Inc., which would be able to promptly provide a replacement transformer, and

WHEREAS, the Vice President for Administration & Finance of the University, as the University's contracting officer, acting in accordance with the declaration of emergency, received and approved a request to purchase from Scott Testing, Inc. a replacement transformer to be installed to alleviate the emergency situation, which purchase is in the amount of $28,000, in excess of the current bid threshold of $26,200, and

(continued)
RESOLUTION #6 (continued)

SUMMARY STATEMENT

This resolution is presented in compliance with N.J.S.A. 18A:64-57 which permits the purchase of material in response to a legitimate emergency affecting the health, safety and welfare of occupants of a building without the need to follow established bidding procedures even if the purchase is above the bid threshold. In this case the transformer to furnish electrical power to Wilson Hall became disabled suddenly, causing immediate health issues to occupants of the building. The Vice President and President of the University declared an emergency which enabled the University to locate and purchase a replacement transformer within two days of the existing transformer becoming disabled. The University located a replacement transformer, and as an emergency matter, caused the replacement transformer to be acquired to enable Wilson Hall to resume operations consistent with health and safety considerations.
