University Senate Resolution on the Presidential Home

The Rowan University Senate recognizes that the President of the University must have a residence that is appropriate for the leader of a research-designated institution which comprises more than 16000 students, two medical schools, and regionally and nationally recognized colleges and schools.

We also understand that because the University is serving as an economic engine for the region, the President’s house must be suitable for events with business, political and educational leaders, as well as the faculty and staff of the University.

Furthermore, we recognize that the President’s house is a long term investment that should remain in the University for years to come.

Finally, we see that the University is an integral part of Glassboro, just as Glassboro is an integral part of the University. The development of Rowan Boulevard, the offices and classrooms in the Bank building, and the Art Gallery at 301 High Street, and development of Hollypointe Commons all testify to the relationship between the Borough and the University, and we wish to further deepen and extend that relationship.

Consequently, we would urge the University Foundation, Board of Trustees, and President to work to find a Presidential Home in the Borough of Glassboro.
