Minor Curricular Change

1. Details:
   a. Change requested in prerequisite for Chemistry of the Environment (1905.301)
      From:
      (none listed)

   To:

   1703.305 Patterns in Nature I: Visual Geometry

   b. Sponsors: K. Magee-Sauer, Coordinator of Liberal Studies Math/Science Specialization, Dr. Robert Newland, Chair of Chemistry and Physics

2. Rationale:

   a. Need:
      Chemistry of the Environment is an interdisciplinary course drawing on the lower level knowledge obtained throughout the first two years of study in the Liberal Studies Math/Science specialization. It is an upper level course in the Math/Science specialization. Currently, (by oversight), no prerequisite is listed in the catalog. Patterns in Nature I has as its pre-requisites the lower level math and science courses (including Chemistry of Everyday Life) needed for interdisciplinary study at the upper level.

   b. Curricular Effect:
      No added effect. This change is correcting an oversight.

3. Results of Consultations:
   none, affected parties are sponsors of change
