Course Title Change Proposal

The following change in course title is requested:

From: Computers and Programming

To: Assembly Language Programming

Rationale: The name change accurately reflects the course description. Also, the new name brings the course in line with equivalent courses offered at other schools. Everything else about the course will remain unchanged.

Current Catalog Description:

0704.204

Computers and Programming

(Prerequisite: 0701.102)

This course is a continuation of the study of digital computers and programming begun in Introduction to Computer Science. The topics include computer structure, machine language, addressing techniques, and the elements of assembly language programming (e.g. IBM 370-BAL). The student is expected to successfully run five assembly language programs on the computer.

Impact Statement: The title change provides positive impact to the Computer Science program as it provides more accurate information about the course.

Consultations: Letters were solicited from

Dr. Michael Guerard, Industrial Technology ✓

Mr. Oliver Winn, Administrative Studies

Mr. Robert Loscher, Computer Center

*Dear Fran:*

*I have received your proposal to change the title of the course, Computers and Programming to Assembly Language Programming, and concur completely.*

*Based on the catalog description, I agree that the new title would better describe the course content.*

*Sincerely,*

ADMINISTRATIVE STUDIES DEPARTMENT  
(609) 445-6025

January 28, 1981

Dr. Francis E. Masat  
Department of Mathematics and Computer Science  
Robinson

Dear Fran,

This will confirm our telephone conversation regarding the proposed course title change for course 0701.102 and the proposed new course, Compiler Design.

The Administrative Studies Department and I endorse these proposals enthusiastically. I understand you do not plan to add this course as a requirement for the Concentration in Computer Science now offered by the Mathematics and Computer Science Department. We endorse this position because we judge the course as being more technical than would be required for most of the applicants for the Concentration. We believe, however, that the course would be a desirable elective for those students interested in this depth and direction.

Sincerely yours,

A handwritten signature in cursive script that reads "Oliver H. Winn".

Dr. Oliver H. Winn

PS As a matter of general practice, we are advising all of our MIS majors to work toward meeting the requirements of the Concentration in Computer Science.
