**MINOR CURRICULAR CHANGE
CHANGE IN PREREQUISITES
0702.338 Design of Database Systems**

DETAILS

- A. Change Requested:
Change prerequisites for 0702.338 – Design of Database Systems
- from:
0702.334 Management Information System
0702.322 Principles of Systems Design
 - to:
0702.322 Principles of Systems Design
- B. Sponsor: Diane Hamilton, Department of Management & MIS

RATIONALE

- A. As we tighten control of our prerequisites, we are finding that some courses, have listed prerequisites that are not really “required,” but rather “desirable.” Since students can have their graduation delayed for as much as a year if they miss a prerequisite, faculty members feel it is necessary to designate as prerequisites only those courses that are necessary for success in a subsequent course. Management Information Systems is a survey course, which has one chapter that introduces database management systems. Students do not need to complete Management Information Systems (0702.334) in order to be successful in Design of Database Systems (0702.338).
- B. There is no programmatic change associated with this proposal.
