MEMORANDUM

November 1, 1974

To: Chairperson and members of the Curriculum Committee

From: Frank Goodfellow, Chairperson
Department of Elementary Education

Re: Change of credits request for 0802.301, Curriculum and Methods in Teaching the Language Arts (Primary) and 0802.311, Curriculum and Methods in Teaching Language Arts (Elementary).

The Department of Elementary Education requests approval to change the credits given for the courses listed above from 3 to 4 credits. The department feels that the added credit hour would provide an opportunity to offer students a laboratory experience in the elementary schools. Courses offered in the evening hours, or in Extension, could provide opportunity for simulated teaching-learning experiences or other innovative teaching techniques which would help students to apply the practical teaching skills involved. This request is endorsed by the Elementary Education Department Committee on Language Arts Curriculum.
