MINOR CURRICULAR CHANGE
Title/Code Change

Details

Change Requested:

From: Physical Education for Men - 0837
Physical Education for Women - 0838

To: Health and Physical Education - 0838

Rationale

The curriculum for students majoring in Health and Physical Education does not differentiate between men and women. This is an old classification which has never been officially changed. The curriculum code should designate both health and physical education since the Bachelor of Arts degree is in both areas.

Results of Consultation

No consultation requested outside of the Department of Health and Physical Education.

FROM: David Butters, Registrar

On May 29, 1991, Dr. Flack approved a number of new courses, title changes, etc for Health and Physical Education. Among those changes was a curriculum code change in Physical Education for Men (0837), and Physical Education for Women (0838), to Health and Physical Education (0838).

This change will effect the transcribed program of study for all female PE students who graduated prior to May 91. Men would continue to be listed as Physical Education for Men. However, women would change to Health and Physical Education. Speaking with Mary Putman, this was not her intention when she recommended the change.

The Registrar assigns computer codes for approved programs. Unique numbers must also be assigned for program title changes so that the historical files remain unchanged. As such, I have assigned the code 0835 for the new title "Health and Physical Education." Students graduated prior to May 91 will remain 0837 and 0838, with the original titles. Those now active in Health and Physical Education are listed as 0835. Concurrently, both the graduate and undergraduate program codes will also be consistent.
