Other-

**MINOR CURRICULAR CHANGE PROPOSAL**  
**Course Title Change**

**Details**

- a. Change Requested  
From: Integrating Educational Technology into Teaching (0833.420)  
To: Educational Technology
- b. Sponsor: Lynne Levy

**Rationale**

- a. Need for such a change: When the State Department of Education reviewed the new College of Education curriculum last year, we were informed that only 30 credits could be in "teaching." They approved this course, with a title change that did not include "teaching."
- b. Curricular Effect: there is no curricular effect. However, in the attached note from Pat Mosto, when this change was to be implemented last year, the new title was to appear on students' transcripts beginning Fall 2005. It is requested that this still be done. [This change was to go through last year, but seemed to have gotten "lost" along the way.]

**Results of Consultation**

- a. The Department of Computer Science was consulted with the original proposal. They were again consulted with the name change.
- b. Attached is a copy of an e-mail from Jennie Kay, Chairperson of Computer Science, stating that they are comfortable with the change.

Lynne,

I forwarded your mail to the curriculum committee and we're comfortable with your preference, "Educational Technology."

Thanks for consulting us,

-- Jennie

**Subject: RE: COE technology course**

**Date:** Monday, May 9, 2005 9:54 AM

**From:** Mosto, Patricia <Mosto@rowan.edu>

**To:** "Levy, Lynne C." <Levy@rowan.edu>

**Cc:** "Faison, Christy" <Faison@rowan.edu>, "Milou, Eric" <milou@rowan.edu>, "Kessel, Steven J." <kessel@rowan.edu>

Lynn, regarding your questions about the 1-credit technology course, now named "Educational Technology":

Eric Milou, Chair of the University Senate Curriculum Committee, agree that you do not need to do a new course proposal for the title change. Just submit the new name to the Senate for the records.

According to Steve Kessel, Registrar, even if the title is changed in the Fall, it can appear retroactive in the students transfer. Along with changing the title on the course inventory side, the registrar could change the 054 section titles too. Better yet, you can specify you want the course to start Fall 05 on the proposal.

If you have further questions let me know

Pat

Subject: COE technology course

Christy & Pat,

In our new program, we put in a 1-credit technology course. The title was "Integrating Educational Technology into Teaching." When the State went over our program, they approved the course, but not the title. Because of the 30-credit limit for teaching courses, it cannot relate to teaching.

Our first choice, Technology in Education, was not accepted by Computer Science. Last week I again contacted them with the concept that the new

title be "Educational Technology." They agree with this.

Mark Meyers has asked me to contact you to determine what we need to do.  
Do  
we need a new course proposal, title change ???

Please let me know and I will submit the appropriate paperwork. I know  
it  
is too late to get any Senate changes at this time; however, the course  
will  
be offered in the fall. What can be done?

Lynne Levy
