MINOR CURRICULAR CHANGE

for

Seminar in Management Information Systems

1. Details

a. Change Requested:

Prerequisite change for Seminar in Management Information Systems
(0702.420)

Add the following course to the current prerequisite list:

Statistics II (1702.261)

b. Sponsor:

diane hamilton, Management/MIS Department

2. RATIONALE

a. Statement of "need"

Seminar in Management Information Systems is the final course required of Management Information Systems majors. Much of the course is comprised of reading and analyzing current research in the MIS area. Much of this research is empirical and statistical analysis is included. In order for students to critically evaluate the experiments conducted, they need to be grounded in statistical application and theory (e.g. sampling theory, significance, validity, regression analysis, ANOVA, Chi-Square).

b. Statement of curricular effect:

There is no curricular effect as a result of this change because MIS students are already required to take Statistics II. This change will merely require that they take Statistics II prior to enrolling in the MIS Seminar.

3. RESULTS OF CONSULTATION

a. All faculty within the Management/MIS Department were consulted regarding this proposal. The proposal was approved at a regular departmental faculty meeting.
