Re: Change in number of credits (1 cr. to 4 cr.) for Sophomore Engineering Clinic II

Date: February 23, 1998

The College of Engineering requests that Sophomore Engineering Clinic II be changed from 3 credits to 4 credits. Neither the objectives nor outline for the course have changed. The elements in Public Speaking (1506.202) have been integrated into the course structure. The change reflects the partnership with the College of Communication faculty to impart a strong communication foundation to our students. The number of contact hours of the course is consistent with the proposed 4 credit designation.

Considerable discussion by the faculty in each of the engineering programs led to this change. The new, and approved, curriculum in each engineering program reflects this change.

As noted on the MINOR CURRICULAR CHANGE FORM, we request that the HEGIS number be changed to 0901.202. This reflects a more proper numerical sequencing for the course within each engineering program.
