Introduction to Programming
Robotics for Absolute Beginners Two Part Series

Come learn the basics of LEGO EV3 Robot Programming and discover a new way to bring math, science, and computer science content to your students both in and out of the classroom. No prior programming experience of any kind required. By the end of this hands-on class, you (YES YOU!) will have programmed a robot to dance around the room. Focused on grades 4-8 but open to K-12.
