## Quechua Expressions of Stance and Deixis

Editors: Marilyn Manley and Antje Muntendam

*Quechua Expressions of Stance and Deixis* explores the semantics and pragmatics of Southern Quechua and Ecuadorian Quichua expressions, considered as markers of stance and deixis. This volume is the first to study a broad range of stance/deictic phenomena in Peruvian and Bolivian Quechua and Ecuadorian Quichua in-depth, with examples that have been elicited as well as captured from natural discourse. Each chapter investigates these expressions through fieldwork and experimental studies, many employing original methodologies. As such, this work stands as an important contribution to the study of an endangered language.
